

SCRATCH

PONG

ON A PICO

College of Natural Sciences  
Education & Outreach Center

Dr. Jaime Ruiz from the Dept. of Computer Sciences turned us on to the Scratch programming language developed at MIT and now we are hooked! We added some neat little Pico Boards and figured out how to make a Pong game. We had so much fun, we thought that you might like it too! Dr. Ruiz and his students will help walk us through the programming process. You don't have to even like computers to find this workshop entertaining and educational.

**You are invited to the College of Natural Sciences  
Education & Outreach Center's Spring Workshop\*!**

(\*In collaboration with the CSU Chapter of Sigma Xi)

**When:**

Monday, April 21, 2014, 4:00 - 5:30 p.m.

**Where:**

CNS Education & Outreach Center  
Third floor of the Natural & Environmental Sciences Building  
1231 East Drive, Main Campus

Seating is limited to 30.

Please RSVP to [andrew.warnock@colostate.edu](mailto:andrew.warnock@colostate.edu)  
to reserve your seat today!
